

# PSYCHOLOGY DAY PSYCHED FOR STEM!

Psychology day will introduce students and faculty to a new STEM track in psychology funded by a grant from the National Science Foundation, preparing students for cognitive psychology, neuropsychology, and neuroscience-focused programs and careers. The keynote speaker is Dr. Bianca Jones Marlin, a neuroscientist at Columbia University. In her talk, “**Parental Roles in Promoting Survival in Offspring**,” Dr. Marlin will discuss her research in transgenerational epigenetic inheritance – how learned behavior in the parent can become innate behavior in the offspring. We will also discuss students’ opportunities after transferring from BMCC to City College of New York and other four-year colleges

**2 - 2:15 PM: greetings  
and refreshments**

---

**2:15 – 3 PM: Keynote  
speaker Dr. Bianca  
Jones Marlin**

---
